Dear Mr. McCabe,

AECOM is submitting the attached Final Soil Remedial Investigation ("RI") Report for the Garfield Avenue Sites on behalf of PPG Industries as part of PPG's Hudson County, New Jersey Chromium Program. The revisions to the Draft Soil RI Report have been incorporated into this final version in accordance with PPG's February 6, 2012 response to comments letter that was accepted by the New Jersey Department of Environmental Protection ("NJDEP") on February 14, 2012.

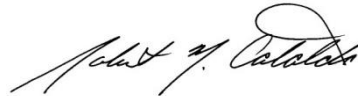

Copies of this Final Soil RI Report will be submitted to NJDEP, the NJDEP Technical Consultant (Weston Solutions, Inc.), and the appropriate stakeholders. Please note that the set of full data deliverable reports in Adobe PDF format was provided only to NJDEP and Weston due to the overwhelming volume of material in it.

If you have any questions or comments, please contact either of the undersigned.

Yours sincerely,
