**Abbreviations:**  
 Cr<sup>6</sup> - hexavalent chromium  
 CrSCC - Chromium Soil Cleanup Criteria  
 FD - field duplicate  
 ft bgs - feet below ground surface  
 GA Group - Garfield Avenue Group  
 mg/kg - milligram per kilogram  
 NJDEP - New Jersey Department of Environmental Protection  
 RI - Remedial Investigation  
 SRI - Supplemental Soil Remedial Investigation

**Data Qualifiers:**  
 J - Indicates the result was an estimated value; the associated numerical value was an approximate concentration of the analyte in the sample.  
 U - Indicates that the analyte was not detected in the sample above the sample reporting limit.  
 RA - Indicates that the analyte was not detected above the reporting limit and the reporting limit was approximate.  
 UU - The sample result was rejected but is useable.

**Notes:**  
 1. Boring locations within the numbered chrome site's boundary are shown for reference purposes only.  
 2. Cr<sup>6</sup> impacts located on Site 199 will not be addressed as part of the GA Group sites.  
 3. Depths are displayed in feet below ground surface (ft bgs).  
 4. Results are reported in mg/kg.  
 5. Red font indicates an exceedance of the NJDEP CrSCC (≥ 20 mg/kg) dated September 2008, revised April 2010.  
 6. Preliminary design investigations (PDI) for soil remediation and implementation of soil remediation have been ongoing throughout the course of the Soil RI and SSRI. A few additional areas with impacted soil that are outside of the area delineated during the Soil RI have been identified during the PDI and remediation programs. These areas are being addressed during the remediation program and the resulting data for soils remaining in place will be presented in the final Remedial Action Report for each remediation area.  
 7. The Jersey City parcels boundaries source is the "NJ Composite of Parcels Data with Joined MOD-IV Attributes 2017" dataset from New Jersey Geographic Information Network, available at <https://njgis.state.nj.us/USJ/NJGINExplorer/DataDownloads.jsp>. The parcel boundaries provided by this source are not surveyed data.
