Appendix J
Non-Hazardous Waste Disposal Documentation
Site 137 North and Site 143, Garfield Avenue Group
PPG, Jersey City, New Jersey

This appendix includes bills of lading (BOLs) for solid non-hazardous wastes which were removed during building demolition or excavation of the Site 143 portion of Phase 3A and Site 137 North portion of Phase 3B North as part of the soil remediation activities being conducted for the Garfield Avenue Group Sites. This appendix also includes BOLs for wastes removed during full-scale remedial activities, wastes generated during groundwater treatment system operation, and wastes not directly loaded during excavation activities (i.e., well installation, mitigation activities, and remedial investigation-related activities that occurred concurrently with remediation).

This appendix also includes some wastes removed during the Site 132 excavation activities, which occurred concurrently with the Site 137 North and Site 143 remediation. In addition, the 2017 BOLs are included for the mitigation activities conducted at Site 137 North and along Carteret Avenue.
