Subject: RE: Site 016 Final Cut Sheets

Weston has reviewed the linked cut sheets and discussed our review with NJDEP. The submitted cut sheets are acceptable as they relate to the excavation work required outside the footprint of the building on Site 16, and PPG may proceed with the exterior remedial action. It is our understanding that the interior remedial action will be performed at a future date. The NJDEP asked that the interior final cut lines also be submitted for final review, so they can be agreed to.
