To whom it may concern:

PPG, as a responsible generator of hazardous waste, must comply with all standards established by the federal EPA for the proper management of hazardous waste promulgated November 19, 1980 (USEPA 40CFR Part 260 and NJDEP N.J.A. C. 7:26G-1.)

Included in these Regulations are requirements for formal documentation and tracking of all shipments of Hazardous Waste within the United States Manifest System (40CFR Part 262 Subpart B). WTS, Inc. is currently and has been PPG Industries, Inc. Logistics Manager for the New Jersey Chrome Remediation Effort since July 2010. The Berry Lane Restoration phase was a portion of WTS overall efforts in the various NJ Chrome Projects. WTS responsibilities are to inspect and make sure each vehicle utilized for offsite management of Chromate Chemical Process Waste (CCPW) were properly placarded, insure shipments are safe and secure and execute all Hazardous Waste Manifests from the Berry Lane Facility to the Designated Disposal Facility(s).

Copies of manifests executed by WTS on behalf of PPG, for all shipments, are then provided to PPG by WTS and then sent to NJDEP for permanent records.

Copies of the original Manifests accompany the transport vehicle at the time of the offsite shipments of CCPW to the Disposal Facility(s).

WTS has complied with and continues to comply with, on a daily basis, all Federal and State Regulations governing the Manifest System referenced above.

The Disposal Facilities utilized send return Manifest copies of received and accepted shipments to PPG and NJDEP for matching permanent records. Federal and State Laws cited above require full compliance with these procedures within specified time constraints.

WTS has assisted PPG throughout the records collection process described above in order to ensure all Documents/ Manifests of all shipments made from Berry Lane Project are complete and in the possession of PPG, the Disposal Facility(s) and the NJDEP. In addition WTS certifies that all manifested shipments of CCPW that were shipped offsite from Berry Lane Operations were received by the designated disposal facility(s) and the document control return system implemented by the EPA and State Agencies requirements were fully satisfied.

Sincerely,

**RE: Certificates of Disposal**

Dear Mr. Donnelly and Mr. Tredidgo,

On behalf of US Ecology please find attached the Certificates of Disposal for the soil, water and drums shipped to US Ecology's treatment facilities. The facilities are EQ Detroit in Detroit, MI; Michigan Disposal Waste Treatment Plant in Belleville, MI; EQ Pennsylvania in York, PA; and Stablex, a US Ecology Company, in Blainville, Quebec.

All of the waste received was properly treated and disposed of after treatment. The excel spread sheet has a list of received manifest with volumes. The attached Certificates of Disposal are additional confirmation that the waste was properly managed.

Sincerely,
